## **ACKNOWLEDGEMENT**

I would also like to express my sincere thanks to the teachers of the Department of Business Administration of Nguyen Tat Thanh University who dedicatedly taught theoretical knowledge to help me take full advantage of it. used in this research.

However, in the process of implementing this topic, although I tried my best, due to limitations in time, knowledge, and experience. Therefore, this thesis will still have many inevitable shortcomings. Therefore, I look forward to receiving sincere feedback from the Faculty of Business Administration lecturers and instructors so that my thesis can be more complete.

Thank you sincerely!

## **COMMITMENT**

I commit that:

- I wrote this thesis on my own. The information and findings given in this thesis are accurate and original.
- All mentioned extracts and comparison data utilized in this thesis are from reliable sources.
- To the best of my knowledge, of the highest precision

## **Abstract**

To enhance and promote the entrepreneurial spirit of Vietnamese students. The study examines the impact of the 5-factor personality model, general self-efficacy scale, social influence scale, and entrepreneurial intention scale applied in the Vietnamese context. This will be the basis for the internal factors of entrepreneurs to enhance the entrepreneurial spirit of young people.

**Keywords:** Personality traits, confidence, self-efficacy, entrepreneurial intention, social influence
